

Don't invest unless you're prepared to lose all the money you invest.
This is a high-risk investment. [Take 2 mins to learn more.](#)

Curating Tomorrow's Growth Since 2014

Investing in dynamic, innovative businesses harnessing AI and other enabling technologies across a range of key sectors, helping them grow from pre-Seed through to Series A.

Award-winning London based VC fund manager.

Symvan select companies to invest in that demonstrate potential to build long-standing relationships, achieve global scale and deliver exceptional investment returns.

Intentionally seeking entrepreneurs who have experienced a problem and solved it.

At the pre-seed stage, we back 5+ founders and management teams each year.

Follow-on funding is then provided to the best performers within our existing portfolio to continue growth.

Our extensive experience in curating innovative tech and software solutions has led to an established investment strategy and multiple exits.

Risk Summary

Due to the potential for losses, the Financial Conduct Authority (FCA) considers this investment to be high risk. What are the key risks?

1. You could lose all the money you invest

- If the business that Symvan Capital's funds invest in on your behalf fails, you are likely to lose 100% of the money you invested. Most start-up businesses fail.

2. You are unlikely to be protected if something goes wrong

- Protection from the Financial Services Compensation Scheme (FSCS), in relation to claims against failed regulated firms, does not cover poor investment performance.
- Protection from the Financial Ombudsman Service (FOS) does not cover poor investment performance. If you have a complaint against an FCA-regulated firm, FOS may be able to consider it.

3. You won't get your money back quickly

- Even if the business you invest in is successful, it may take several years to get your money back. You are unlikely to be able to sell your investment early.

- The most likely way to get your money back is if the business is bought by another business or lists its shares on an exchange such as the London Stock Exchange. These events are not common.

- If you are investing in a start-up business, you should not expect to get your money back through dividends. Start-up businesses rarely pay these.

4. Don't put all your eggs in one basket

- Putting all your money into a single business or type of investment for example, is risky. Spreading your money across different investments makes you less dependent on any one to do well.
- A good rule of thumb is not to invest more than 10% of your money in high-risk investments.

5. The value of your investment can be reduced

- The percentage of the business that you own will decrease if the business issues more shares. This could mean that the value of your investment reduces, depending on how much the business grows. Most start-up businesses issue multiple rounds of shares.
- These new shares could have additional rights that your shares don't have, such as the right to receive a fixed dividend, which could further reduce your chances of getting a return on your investment.

Important Information

This document has been approved as a financial promotion pursuant to section 21 of the Financial Services and Markets Act 2000 by Symvan Capital Limited, which is authorised and regulated by the Financial Conduct Authority in the United Kingdom, FCA number 685262, and whose registered office is at 2 London Wall Place, 6th Floor, London EC2Y 5AU.
