Invest in Tomorrow's Most Dynamic Tech Companies

Symvan Capital offers an exciting opportunity to invest in tech start-ups and scale-ups helmed by ambitious founders. At Symvan we select only those investments that have opportunity to deliver a ten-fold return. We undertake meticulous early-stage due diligence via our 'Symvan Select' process with this focus in mind.

We back entrepreneurs who have experienced a problem, thought about it, and then solved it. We welcome disruption. We want growth. We support and guide companies through that growth to a Series A funding round and beyond to an exit.

Why Symvan Capital?

- Award Winning EIS and SEIS venture capital fund manager
- Zero upfront fees or ongoing charges to Investors
- Potential to deliver exceptional uplift - a target £2.85 return within an average life of 7 years (excluding the impact of tax relief)
- Quarterly deployments with EIS certificates issued at earliest opportunity
- Extensive transparency & portfolio reporting
- 24/7 online access to holdings & tax certificates via the Symvan Portal
- Innovative 'Lifecycle Approach' coupled with considerable NED and industry expert support, mitigates risk in early stages with the goal of achieving a liquidity event

"I have been using the Symvan service for 5 years now. They truly understand founders, the target market and they enhance opportunities by bringing skills to the table to drive growth."

Owen Cook - Chartered ALIBF, Ablestoke Wealth Management

"The level of due diligence and research Symvan undertakes on potential investee companies is impressive and gives advisers and investors great confidence in their investment. Investor communication appears to be excellent which offers a glimpse into the inner workings which few funds can match."

Judges' Panel - Annual EIS Association Awards

Who the Investment can Benefit

UK tax paying individuals to whom any of the following apply:

- Seek potential inflation beating investment to compliment diversified portfolio requirements
- Understand the risks involved in S/EIS investments
- Income tax liability in the current or previous tax year, including higher rate income tax relief
- Capital Gains Tax to defer or write-off, for example, from a property portfolio
- Require inheritance tax planning & Business Investment Relief
- Reached lifetime pension limits

Track Record

£57.5 million+ AUM across 54 companies

2014	Symvan launches first SEIS technology focused fund
2015	Symvan Technology SEIS Fund 2 launched
2016	EIS Technology Fund launched initially to support successful 'incubated' SEIS portfolio companies
2017	Symvan Technology SEIS Fund 3 launched
2018	First successful exit
2019	Second successful exit
2021	Symvan wins Best SEIS Investment Manager for the 6th time
2024	Symvan marks its 5th exit and receives the "Best EIS Fund – Up & Coming" at Growth Investor Awards

Advantages of SEIS & EIS

- Up to 30% income tax relief benefit under EIS, reducing net cost of investment up to 30p per £1 invested
- Up to 50% income tax relief benefit under SEIS, reducing net cost of investment up to 50p per £1 invested
- Unlimited CGT deferral relief under EIS and up to 50% CGT write-off benefit under SEIS
- 100% inheritance tax relief after 2 years
- 100% CGT free gains - no further tax payable upon disposal if shares held for 3 years
- Loss relief can apply to failed companies

"We have found working with Symvan very different. They are focused on making investments in companies with potential for a serious amount of growth rather than looking to just build up funds under management and get returns from tax relief."

Andrew Elson - Berry & Oak

The Opportunity

Invest in SEIS or EIS qualifying tech companies

- **Minimum Subscription:** £20,000 for EIS Fund & £10,000 for SEIS Fund

Risk Summary

Estimated reading time: 2 mins

Due to the potential for losses, the Financial Conduct Authority (FCA) considers this investment to be high risk.

What are the key risks?

1. You could lose all the money you invest

- If the business that Symvan Capital's funds invest in on your behalf fails, you are likely to lose 100% of the money you invested. Most start-up businesses fail.

2. You are unlikely to be protected if something goes wrong

- Protection from the Financial Services Compensation Scheme (FSCS), in relation to claims against failed regulated firms, does not cover poor investment performance. Try the FSCS investment protection checker [here](#).

- Protection from the Financial Ombudsman Service (FOS) does not cover poor investment performance. If you have a complaint against an FCA regulated firm, FOS may be able to consider it. Learn more about FOS protection [here](#).

3. You won't get your money back quickly

- Even if the business you invest in is successful, it may take several years to get your money back. You are unlikely to be able to sell your investment early.

- The most likely way to get your money back is if the business is bought by another business or lists its shares on an exchange such as the London Stock Exchange. These events are not common.

- If you are investing in a start-up business, you should not expect to get your money back through dividends. Start-up businesses rarely pay these.

4. Don't put all your eggs in one basket

- Putting all your money into a single business or type of investment for example, is risky. Spreading your money across different investments makes you less dependent on any one to do well.

- A good rule of thumb is not to invest more than 10% of your money in [high-risk investments](#).

5. The value of your investment can be reduced

- The percentage of the business that you own will decrease if the business issues more shares. This could mean that the value of your investment reduces, depending on how much the business grows. Most start-up businesses issue multiple rounds of shares.

- These new shares could have additional rights that your shares don't have, such as the right to receive a fixed dividend, which could further reduce your chances of getting a return on your investment.

If you are interested in learning more about how to protect yourself, visit the FCA's website [here](#).
